Year 9 Options 2022

Year 9 marks an important stage in your school life as you begin to start thinking about what you would like to do in the future.

You should begin to research careers which you are interested in and the qualifications, skills and personal qualities you will need.

It is important that you are honest and realistic in your judgement.

If you do not know what you want to do in the future, it is important to choose a broad and balanced combination of subjects.

The Core and Statutory Curriculum.

You must continue to study these subjects:

English

Mathematics

Science

PSCHE

PE (Games)

RS

The Entitlement Curriculum. These are your Option Subjects

The Entitlement Curriculum consists of a range of subjects from which you have a choice. You should select a combination which is best suited to your skills, interests, ability and future career needs.

Remember: **CHOOSE** an option subject because:

- You are interested in it and would like to pursue this interest.
- You are good at it.
- You have been advised by your teachers.
- It may be useful for future studies or career.

- **DO NOT** choose a subject because your friends have chosen it. Think only of your own abilities, aptitudes and future interests.
- **DO NOT** choose a subject because you like the teacher. They can change or they may leave.
- **DO NOT** choose a subject because you think it is an 'easy option'. Every subject will make demands on you.
